ABOUT US

Safe Steps Training Services is a non-denominational faith-rooted, family-centered consultancy dedicated to equipping parents, teachers, caregivers, children, and institutions with the essential knowledge and practical skills to create and sustain safe, nurturing environments for every child.

Our work is grounded in Biblical values and informed by evidence-based practices. It combines faith, expertise, and compassion to support families and communities on their journey to raising emotionally healthy, protected, and purpose-driven children.

Every caregiver can be a safe place for a child's heart to grow.

We provide a range of services, including:

- Child protection and safeguarding training for schools, churches, and NGOs
- Faith-informed parenting workshops and mentorship support
- Child rights education and safety awareness programs for students and teachers
- Policy development and guidance for institutions and organizations
- Support in appointing and training safeguarding officers
- Community talks, school presentations, and participation in public events

Through structured programs or customized sessions, we empower communities to recognize, prevent, and respond to child safety concerns with clarity, confidence, and care.

Though our foundation is inspired by Christ's heart, we are a non-denominational, evangelical consultancy that warmly welcomes families from all faiths and cultural backgrounds. We approach every interaction with integrity, inclusivity, and respect because every child deserves to grow up safe, valued, and surrounded by love.
